### Carol Foldvary-Anderson

From the moment Carol learned to write her name she was hooked on lettering and writing. In grade school she was so excited she could write she found joy in writing everyone's name in her beautiful script.

When she reached middle school she was in the schools sign department. More lettering. In College she focused on Graphic and Advertising Design, WOW! Carol was in her element working with lettering and words, again.

Foldvary-Anderson is an award winning artist, designer, author and scribe. Creating calligraphy and illustrative works for the Nevada State Legislature, a tribute to Gov. Bob Miller, the names of the 73rd Session of Nevada's Congress and more. She teaches her craft at TMCC, and offers private lessons, as well.
